Approved For Release 2002/05/01 : CIA-RDP78-04718A000100150068-2

ER 3-8522

MEMORANDUM FOR: Director of Central Intelligence

SUBJECT : Supergrade Review Board Recommendations

1. The Supergrade Review Board recommends approval of the following actions proposed by the Deputy Director (Plans):

25X1A [redacted]

25X9 2. Approval of these actions would increase the number of Agency
25X9 supergrade positions to [redacted] exclusive of 5 positions established by
legislation. Within the Agency ceiling of [redacted] supergrades, plus the
25X9 5 Public Law positions, [redacted] persons actually hold supergrades. This
leaves 24 ceiling slots unencumbered by personnel at the supergrade
25X1A level; since [redacted] action would add an additional supergrade, the margin would be reduced to 23.

3. The two requests presented at this time were extracted from a report of the Review Board which included an additional action. Because no specific recommendation was made on this action, I have returned it to the Board for reconsideration.

4. Appropriate personnel forms are transmitted for your signature if you concur.
